

Contractor Services

"I have been dealing with HelioPower since 2008, during which time they have provided my business with excellent support in the areas of solar equipment distribution. Chad Stanovich at HelioPower is a pleasure to deal with and is always willing to go the extra mile to ensure we are 100% satisfied with every step of the process. Their work has been a major factor in our company's success. I can confidently recommend HelioPower as a solid and reputable supplier and experts in their field."

- Patrick Schmit, President,
Solar West Electric

HelioPowerPacksSM – Complete Solar Kits

We've developed the industry's most complete solar pack and we offer a complete range of contractor services to back it up.

Made up of nearly 100 SKU's, the HelioPowerPackSM is the most complete pre-designed solar pack in the industry. HelioPowerPacksSM include but are not limited to PV panels, inverter, racking, feet, flashings, sealant, splice kits, clamps, ground lugs with hardware, conduit and all hardware associated, DC and AC conductors, homerun and series connectors/conductors, ground wire, ground rod with Acorn or Saddle ground rod clamp, j-boxes and insulated tap connectors, self-tapping screws to mount the j-box, circuit breakers, anchor kits, lumber crayon for panel layout, Sharpie marker for cuts and HR labeling, wooden dowels, lags for mounting the inverter, DC and AC disconnect, stickers and placards, single-line drawing and anything else you might need to install and pass inspection.

Our field-experienced team designs, picks, ships and supports your installation. Each HelioPowerPackSM is customized to your unique solar project.

Contractor Services

The HelioPowerPackSM has proven invaluable in hundreds of installations and we back up our HelioPowerPackSM with a wide range of contractor services to help you develop a profitable solar business. You can rely on us to provide engineering and design, permit packages, rebate processing, construction support, operations and maintenance and installer training.

Leading Technologies at the Best Price

With a HelioPowerPackSM you get the leading solar industry technologies and brand names packaged with all the components you need to complete your solar project, at the best prices available. We pass on the savings we get with HelioPower's vendor direct pricing and large volume discounts.

Customer Service Designed for Contractors

Once we receive your order, we generate a pick list to confirm you have everything down to the last bolt. Your order is then packaged and shipped directly to your job site with a commitment to customer service designed for contractors.

HelioPowerPacksSM the industry's proven technologies and all the parts you need to install on time and on budget – delivered right to your door.
